EVALUATION REPORT OF TEACHING AND LEARNING PROCESS OF BACHELOR OF COMMUNICATION (BComm) FACULTY OF SOCIAL SCIENCE YOGYAKARTA STATE UNIVERSITY

ACADEMIC YEAR 2020/2021

A. Analysis of Study Program

Evaluation of teaching and learning process at the Bachelor of Communication (BComm) was carried out based on data obtained from the UNY monitoring and evaluation system (SIMONA) for the 2020/2021 Academic Year. The recapitulation of each indicator was carried out on all lecturers who were assessed by respondents with a rating scale as presented in Table 1. The distribution of respondents who filled out the questionnaire in each semester is presented in Table 2. The results show that of 15 indicators, the average assessment result is on a very high scale (4.27). The three indicators with the lowest scores compared to other indicators, are the effectiveness of the use of time in lectures, variations in assignments and assessments by lecturers, and lecturer's concern for student difficulties (Figure 1).

Tabel 1. Assessment Scale

Scale	Category
4.21 - 5	Very high
3.41 - 4.20	High
2.61 - 3.40	Average
1.81 - 2.61	Low
0 - 1.80	Very low

Figure 2. Recapitulation of the score of each indicator in even semester

B. Lecturers Assessment

Evaluation of lecturers who teach courses in the BComm is carried out on a semester score. The average performance of the lecturers is on a **high** scale with the distribution of the assessments for each lecturer presented in Figure 2. The lecturers who received lower scores than the others in odd semesters were **Ulfa Hidayati** (lecturer from the study program) and **Reni Nastiti** (lecturer from outside the study program). Meanwhile for the assessment in the even semester, the lecturers who received lower scores than the others were **Ulfa Hidayati** (lecturer from the study program) and **Ponco Wali Pranoto** (lecturer from outside the study program). However, the average scores obtained by those lecturers are still in the high category, thus that their performance in the learning process needs to be maintained.

C. Conclusion

The number of respondents for each lecturer is not evenly distributed. Some of the lecturers who received the highest ratings were assessed by less than one class. Meanwhile, the average assessment components of the study program are mostly rated very high although there are needs of improvement on the indicators: (1) effective use of time in lectures and (2) variations in assignments and assessments by lecturers.
